

# Join the Cycle Train

## How does a cycle train work?

Each cycle train travels along a set route with at least one adult supervisor picking up children at designated "train stops" and cycling with them to and from school.

The cycle train can be flexible to suit the needs of the families using it. The cycle train can go as often as the parents want to supervise it and children can use it every day, or once a week according to their family schedules. And it's free!

**Albany Highway's dedicated cycle path is the perfect facility for a cycle train.**

## Great things about the cycle train:

- Children can practise and develop cycling skills within the safety of a supervised group
- Gives children a sense of independence while being part of a team cycling to school
- Safe, non-polluting and convenient alternative for travelling to/from school
- Get fresh air and exercise – start the day fresh and alert
- Meet other families and get to know your community
- Fewer cars around the school gate and a safer environment for children

## We will provide you with:

- Cycle training
- Bike maintenance workshop
- High vis safety vests/backpack covers

**We plan to hold a meeting at school in the coming weeks for all interested families. If this is you, please complete an expression of interest form.**
